

The Luxor

Luxury full length bathing

Walk-In Baths
IFS (Portsmouth) Ltd

Dimensions & Features

Re-discover the pleasures of bathing again. The Luxor Bath has been carefully designed to enable you to relax and once again enjoy the pleasures of a bath in the comfort of your own home. The inward opening door means you simply walk in and bathe.

The door is so easy to use. Just lightly press the top pad handle and it springs open. Swing the door back and it clicks firmly shut with our patented water tight seal.

Now it is easy with the luxury of The Luxor Bath to just walk in and out, gently lower yourself into the bath sitting on the power driven belt, lie back and relax in lovely hot water. Exclusive to The Luxor is the easy to use twin roller motorised seat belt.

Step into the bath, sit comfortably and securely on the seat. By pressing the easy to reach buttons the belt gently and evenly lowers you right to the bottom of the bath without tipping you over to one side as do all single roller systems.

The unique electronic water controls (UK only) are conveniently placed to turn the water on & off. The thermostatic valve is to TMV3 standard to prevent any possibility of scalding.

Sit and relax, just lay back and enjoy the comforts of bathing again in a full length bath which you simply walk in and out of. Having finished bathing, pull out the twin waste plugs (which cannot jam and they do empty twice as fast as a single waste). Then simply press the easy to reach buttons and the belt gently lifts you up into a comfortable sitting position from which you can easily stand up.

The Luxor is available in any colour to match your bathroom suite.

Of course, there is also the optional 16 Jet Spa system for that final luxurious touch if you really want to spoil yourself. A separate shower system can be chosen as an option too.
